

Learn about the opportunities that will become available through Pike County's

Overall Strategy for Economic Development Dinner

Discuss the competitive advantages and liabilities of Pike County, Pennsylvania as a potential site for relocating businesses. Learn about the specific types of businesses Pike County plans to attract and, how we plan to do it.

The Pike County Economic Development Authority (PCEDA) and the Pike County Commissioners have created a comprehensive and ambitious economic development plan. This plan is designed to bring thoughtful and desirable economic growth along with new diversification of industry to our county. The plan itself will include a targeted marketing strategy, will not use public funds for land acquisition and will target facilities that are consistent with our infrastructure.

COMMISSIONER MATTHEW OSTERBERG

Representing the Pike County Commissioners

MICHAEL SULLIVAN,

Executive Director of Pike County EDA

This strategy is intended to appeal to residents, area businesses, investors and entrepreneurs. All should attend.

If you are a resident, own potentially developable commercial land or are in Real Estate, Banking, Legal, Accounting, Construction, Engineering, School Administration, local Government or the Press; you should attend.
