*Only Philadelphia has 8% sales tax and Allegheny County has 7%; all other Pennsylvania counties have 6% combined sales tax including Pike County.

If your business is a Sub-chapter "S", an LLC, a sole proprietorship or a partnership, your income from those entities will be taxed at Pennsylvania's low personal income tax rates! It is especially appealing when compared to other nearby states. Enhance your bottom line (and your life style) by being in Pike County!

The prestigious Tax Foundation ranks Pennsylvania as one of the best states in the northeast to do business.
